

The Million Dollar Trading Protocols™

A 100% ACCURATE/PROFITABLE TRADING SYSTEM!

“The Traders Advantage”™

*“Give me just 4 months, and I’ll show you how to increase your trading account with a **HIGH** 6-figure cash profit **EVERY** Year for Life . . .
Unconditionally Guaranteed Satisfaction!”*

A very select few will have access to and learn about an amazing never before revealed **proprietary trading system** that generates effortless profits during bull markets and bear markets — and it only takes a few minutes each week!

Picture for a moment your trading account **doubling or tripling** on just two or three trades! That is quite common with the discovery you are about to learn.

- Imagine what would happen if you had a **proven profit-generating system** developed and tested in real time (over the past few years) by one of the world’s **most famous system trading developers** — a system so powerful, so accurate that only a select chosen few will be allowed access.
- What if you could take a quick glance at this **top secret system** containing some of the scientifically derived principles that shows exactly how your trading account can increase geometrically from a small amount of money into a large fortune, quickly, easily, and most of all, safely?

Well, I am about to tell you about a **once-in-a-lifetime** opportunity that I **guarantee** will change your entire perspective on trading stocks and/or commodity futures. This trading system is so powerful that it can change the fate of a select group of traders — and that includes **you** — before the rest of the

trading world realizes what’s happening.

If you are like most traders the three most important things to you and your trading business are: Trading Accuracy, Low Risk and High Profits.

Now, let me ask you a very important question:

Doesn’t it **frustrate** you that your trading could be so much more profitable — you know the answer is out there somewhere, but just can’t quite find it? Doesn’t it make you **furious** that you know you could be actually making a profit and making **10 times as much** or more each year — every year — **IF** you only knew how?

FACT: Over 90% of traders lose money and never make a profit year to year!

What would it be worth to you to have access to something so powerful that it could virtually guarantee to turn your trading around and very likely generate a trading fortune — not in five to ten years, but in 12 to 18 months?

But before I tell you what you will learn and what to expect I would like to share with you my story and how this incredible theory of trading came into existence. Bear with me just for a moment and you will be glad you did.

A BRIEF BACKGROUND AND HISTORY OF THIS DISCOVERY:

In 1982, I set out to discover the perfect trading system. Like most traders, I purchased almost every trading sys-

tem and was excited to have THE LATEST, THE BEST, THE MOST BELLS AND WHISTLES. Reality set in quick when all of those so called expert-trading systems either did not work or failed quickly.

Gradually through the “College of Hard Knocks” I started to develop my own trading ideas, theories, and philosophy.

On or around 1987, I came out with the Market Optimizer trading system. At first this was exclusively an S&P 500 trading system. Later Market Optimizer incorporated all markets on multiple time frames.

Around 1992, the Advanced Market Optimizer II hit the market with world-wide success. Sometime around 1996 the Advanced Market Optimizer III came out and shortly thereafter the final and current version called THE STREAMLINED MARKET OPTIMIZER III (SMOIII) was developed in 1997. In 1998 and 1999 two additional programs called the BULL BEAR OSCILLATOR and TREND ANALYZER with EXPERT WIZARD were incorporated within SMOIII and later became independent trading systems.

I will have to admit the BULL BEAR OSCILLATOR is the MOST ACCURATE short-term trading system that I have ever seen. It can also be used as a long-term trading system. The TREND ANALYZER with EXPERT WIZARD is a trend following system with daily EXPERT WIZARD pop up

**YOU CAN LEARN MORE
ABOUT THOSE TRADING
SYSTEMS BY GOING TO
THE WEBSITE:
www.findatanet.com**

FACT: Don’t think this could never happen to you. It definitely can — and it most likely will when you have the keys to unlocking this newly discovered method of trading.

window telling you about that market's daily price action.

In 1998 I began a research project called THE MILLION DOLLAR PROTOCOLS (MDP). I asked the simple question: "Is there a perfect, 100% accurate, with 100% rates of return trading system?" Over the next three years I obtained a very profound answer to that question! THE ANSWER WAS: YES, DEFINITELY!

Even though the answer was YES DEFINITELY the answer DID NOT COME EASY! It took three years of research working practically day and night, seven days a week, using the past 19 years of knowledge I had obtained but the SOLUTION was discovered on APRIL 2, 2001.

During those three years STREAM-LINED MARKET OPTIMIZER III (SMOIII) customers were kept informed of my research — sometimes on a daily basis — and sometimes on a weekly basis through a built-in program within SMOIII called the **TRADE WIZARD**. As SMOIII customers, once you download data from the recommended data vendor FINANCIAL DATA NET, LTD. a pop-up window appears entitled TRADE WIZARD. The Trade Wizard contains a written report of the MDP research in the form of trade recommendations, and research updates under the heading of THE CLASSROOM where I reported my progress on the development of the MDP system.

On page 3 are the final TRADE WIZARD "CLASSROOM" reports leading up to the MDP discovery that SMOIII customers received in real time. I include them here to give you a brief glance into the "final hour" of discovery and what SMOIII customers were actually witnessing as the "Final Solution" was about to be unveiled.

Those were my exact words in the TRADE WIZARD "Classroom" reports to SMOIII customers in real time. Why should you care about this? Because anyone can take a trading account that is losing money, making mediocre profits, or just breaking even—implement my new discovery—and turn your trading into a **highly profitable** trading machine!

In a moment you will be learning about a trading system literally years

before the rest of the general public gets wind of it—and you can make as much money as you ever want to make trading part time! And if I can help it, the "general public" will never learn about this system. Only SMOIII customers, Financial Data Net, LTD (FDN) customers, and those who have visited the FDN website and have registered their name (you are probably in this third group since you are receiving this by mail).

When you read the special report below (reproduced from the TRADE WIZARD "Classroom" that was downloaded to all SMOIII customers using the SMOIII system products and using FDN data download) "IT" defies all logic. But this new proprietary trading method will enable you to generate spectacular monthly profits— with an **UNCONDITIONAL GUARANTEE!**

The great thing is with a subscription to the Million Dollar Protocols Website I make trading for profits so easy for you. Each week (sometimes daily) I will provide you with straightforward recommendations on **EXACTLY** what to do, when to do it, and when to take profits. All trade recommendations are fully updated in a clear and concise method so that you do not have to **THINK** about anything except call your broker with the PRECISE trade recommendation and trade orders given on the Million Dollar Protocols Website.

YOU LEARN THE FOLLOWING:

- 1) I tell and show you **EXACTLY** what market to buy/sell. Where to place **SMALL**, limited risk protective stops.
- 2) I tell and show you how to **LOCK** in small profits **FAST** that add up to **HUGE** profits.
- 3) I tell and show you how to **SAFELY** pyramid **PROFITS** into a multi-profitable trade position.
- 4) I tell and show you how to manage your trade positions like a pro.
- 5) You will learn the secrets of geometric compounding of profits and much, much more!

That's how it will be: easy, fun, and a learning experience. The website could be compared as a University of Trading! That's the kind of priceless, take-it-to-the-bank information I will provide you in the Million Dollar Protocols Website.

In addition to the above, you will soon also have access to the following on the Million Dollar Protocol website:

- Online Trading Video Seminars
- Online Audio Trading Tips
- MDP Traders Round Table
- Special Trading Report
- REAL LIFE TESTIMONIALS from real customers

The MDP website will feature both commodity trading and stock trading portfolios.

In just a minute, I'm going to tell you more about the remarkable MDP trading system and how it will change your financial life forever. But, first let me get back to what this new MDP technology is all about and show you why and how all of this is not only possible — it's probable. In fact, with the MDP Website's daily, weekly buy/sell/hold, step-by-step limited risk and high return guidance system, it's like money in the bank.

THE BASIC "MDP" PHILOSOPHY:

I believe that even the most complex subjects can be broken down to simplicity. Human minds make the simple complex. Success is making the simple, simple again.

I also believe that there are no real end all answers because if there were, knowledge and progress would simply end. Knowledge begets knowledge. Once you have an answer, that answer/solution can be improved upon through philosophy, reason, logic, and scientific principles in order to discover the precise facts of reality.

Humans gain and retain their knowledge in conceptual form. Concepts are tools of the mind and the thought process. The better your thoughts and tools the more precise the facts are in tune with reality. The precision of a definition will determine the validity of

Continued on page 4

HERE ARE THE TRADE WIZARD/CLASSROOM SESSIONS JUST AS THEY WERE “WORD FOR WORD” JUST BEFORE THE FINAL HOUR OF DISCOVERY!

MARKET OPTIMIZER TRADE WIZARD FOR MARCH 13, 2001:
THE CLASSROOM: Part 1 of a 3 part series “Sequential Forerunner Trading Syntax”

“On February 26, 2001 Trade Wizard I stated that I had a special announcement regarding the completion of research that I had been working on. I have been working on this for some 18 years but in a more specialized way during the last four months. In previous SMOIII newsletters I have mentioned “Forerunners” and what they are and how they can be used to identify major trend changes. I have now discovered another piece to the puzzle. After snapping this piece of the puzzle into the trading plan I decided to call it the “Sequential Forerunner Trading Syntax”. It is now a permanent part of the MDP trading plan. With “it” the MDP plan becomes 98% completed.

Simply put it is the “road map” that all markets follow at every major turning point. Once understood any trader can look at a chart and determine with approximately 90% probability (I’ll discuss this in the part two of the CLASSROOM) that THAT top/bottom will produce a MAJOR move of \$3,000.00 to \$10,000.00 profit WITHIN a time frame of ONLY TWO MONTHS on a one contract trade! In part II I will be a little more specific and discuss the concept further.

MARKET OPTIMIZER TRADE WIZARD FOR MARCH 15, 2001:
THE CLASSROOM: Part 2 of a 3 part series.

Most trading programs/systems deal with only two dimensions: Price and Time. There are other “factors” such as Volume and Open Interest but Price and Time are the two dominant dimensions. There is a third and possibly a fourth dimension I am researching. The third dimension is called Market Symmetry. Webster defines Symmetry as: “balance proportions . . . a rigid motion of a geometric figure that determines a one-to-one mapping onto itself . . . the property of remaining invariant under certain changes (as of orientation in space, of the sign of electric charge, of parity, or of the direction of time flow.) . . . and I might add PRICE FLOW!

I have discovered the Vertical (Price) Symmetry and the Horizontal (Time) Symmetry that when combined create a point in time and price that sets up a major turning point and trend reversal in all markets!

This methodology when tested during the past 12 months in 18+ markets produced 41 trades: 36 winners and only 6 losers. This does not include break-even trades which there were several and that is because protective stops are moved in the direction of the trade within a day or two on average to break-even point.

This is an 86% win to loss ratio. That means nearly 8 to 9 trades out of 10 are profitable! In most cases the initial protective stop is, on average, around \$150.00 to \$600.00 but within a day or two the risk is reduced by 50% to 100%!

Each of the 18+ markets tested generated an average 2 or 3 trades per year producing between several hundred and several thousand dollars per contract! Now, I realize that the percentage of wins/losses will vary over time and with each individual market but it should remain relative constant. With this discovery completes 98% of the MDP research that began in 1998. What about the other 2% or so? That 2%+ – will involve the use of options either at the beginning and/or the ending of the trade. With 86% + – accuracy that leaves a difference of only 14% to generate 100% accuracy! How do you close the gap between 86% and 100% accuracy! I will have part of that answer in Part III.

MARKET OPTIMIZER TRADE WIZARD FOR MARCH 19, 2001: THE CLASSROOM: Part 3 of a 3 part series
“Closing the Gap Between 86% and 100% Accuracy”

The answer to the remaining 14% and generating 100% accuracy lies in the analysis of the losing trades. Let’s say for each losing trade, on average, generated a minimum of \$200.00 profit before turning into a losing trade. If that were the case you could move your stop to a \$25.00 to \$75.00 (cost of commission) on EVERY TRADE and never have a loser.

This has some advantages and some disadvantages. Obviously some trades will reach \$200.00 then move counter to the trade stopping you out and then reversing to later hit a much higher profit. Also, not every losing trade will hit the average minimum target of \$200.00. The use of options comes into play here as well, but this will give you some food for thought as I begin to close the gap on the “Holy Grail” of commodity trading. Of course the so called “Holy Grail” probably does not exist and it is really not needed but we can try and continue to perfect our trading skills in that direction in the process of developing even better trading methods. Soon I will have another major announcement . . . to be continued . . .

MARKET OPTIMIZER TRADE WIZARD FOR APRIL 02, 2001: THE CLASSROOM: Remember this date: 4-2-01. I will reference it in an upcoming CLASSROOM that will have major significance. If I said anything now it would just be putting the cart before the horse. Although, it is important that I mention it for future reference to back up what I will be discussing. When I reference the above date in the future CLASSROOM it will become very clear as to why I mentioned this date.

MARKET OPTIMIZER TRADE WIZARD FOR
AUGUST 27, 2001: THE CLASSROOM: “The Announcement” coming soon! This will be broken down into three main sections: THE BASIC MDP PHILOSOPHY, THE BASIC MDP THEORY, THE BASIC MDP TRADING STRATEGY, THE SPECIFIC MDP TRADING STRATEGY.

A famous billionaire had this to say about trading:

“You can have the first 20% and the last 20%, I’ll take the middle 60%!”

The middle 60% IS the trend! That is where 60% of the profits are.

I State: MDP has discovered how to trade (successfully) all three zones: the first 20%, the middle 60%, and the last 20% of a trend!

WITH THE MILLION DOLLAR PROTOCOLS YOU WILL HAVE ACCESS TO A PROPRIETARY MONEY MAKING SYSTEM THAT DEFINES WHERE THE SMART MONEY IS AND WHERE IT'S GOING, HOW FAR IT'S GOING AND MOST IMPORTANT HOW LONG IT WILL TAKE TO GET THERE!

that knowledge. The process of creating those precise definitions can be exhausting. It is also important to ask yourself the correct questions until your subconscious reveals the answers. This is how one transcends a current thought or problem by taking it to a new level of understanding.

Many traders may be wondering how I could think I could even come up with an idea of a perfect system. I recognize that if one is in the possession of a truly valid theory of trading, it could theoretically be expanded to include an infinite realm of possibility of accuracy and profits—immediately, continuously, indefinitely, and geometrically compounding until you reach your financial goals and beyond.

THE BASIC MDP THEORY:

The basis of MDP is summed up in five words: “FOCUS ON THE CRITICAL TRADES”. Most of you have heard of the 80/20 Rule. The 80/20 Rule was theorized by an Italian Sociologist over 100 years ago. This principle simply states that 20% of your effort creates 80% of your results. And I might add: Both in Time and Money!

Most people have this backwards and apply the 20/80 Rule by focusing their effort on the 80% that doesn't matter rather than the 20% that does matter.

Let me illustrate this in terms of trading, money, leverage, and compounding. MDP is about taking a small

amount of money and safely leveraging it into **ONE MILLION DOLLARS** in the shortest amount of time.

Suppose you have \$1,000 to trade with. How would you trade that \$1,000? Let's theorize two trades. Here are the results of your two theoretical MDP trades:

Trade 1:

\$800.00 profit / \$200.00 investment
= 400% return

Trade 2:

\$200.00 profit / \$800.00 investment
= 25% return

The 80/20 Rule is very profound. For every dollar invested in Trade #1 would yield 16 times more profit than the same dollar invested in Trade #2! ($400 / 25 = 16$). Trade #1 was highly leveraged. Trade #2 was low leverage. Putting risk aside for a moment you would rather have your money invested in Trade #1.

The 80/20 Rule also applies to maximizing your time. Think about it. Focusing on the critical trades leverages your time AND money with results 16 times FASTER than normal!

MDP TRADING STRATEGIES:

In the 4-2-01 Classroom I stated “remember this date 4-2-01, I will reference it in an upcoming Classroom that will have major significance. If I said anything now it would just be putting the cart before the horse. Although it is important that I mention it for future reference to back up what I will be discussing. When I reference that above date in a future Classroom it will become very clear as to why I mentioned this date.”

So, what happened on 4-2-01? I discovered a 100% accurate trading idea/system incorporating everything I have stated and been working on for the past three years (using my trading knowledge of the past 19 years). I say NEAR 100% because this method has been 100% accurate in historical back testing for at least five years! I just have not had time to research it back any further. I don't think that will be necessary based on my understanding of this method but will provide an

amusing research project sometime in the future.

I know that at some point there will be a losing trade either past or present/future. Although I am very confident that the percentage accurate will not fall much below 90%. Any losing trades below 100% should be very insignificant. I state: “overall it has been 100% accurate and I will comment on that more in a moment.”

Is this just a little bit exaggerating? No, not at all. Once you know the philosophy (which I am going to discuss in a moment) you will understand what I call the 80/20 rule of trading and what and how it is used. Using this system you will most importantly not only know where a market has been but you will know where it is going!

Let me ask you a question: Would you rather make \$100,000.00 on 100 trades with less than 100% accuracy (say around 75% which is a great system in anybody's trading tool box) with low risk; or would you rather make \$100,000.00 trading a 100% accurate system on very low intra-day or closed basis drawdowns (sometimes ZERO!) in ten trades trading every three to four months? I think most would choose the latter based on the 80/20 Rule of trading only the critical 20% of trades that REALLY MATTER. MDP defines those 20% critical trades!

Here is a brief summary of the MDP trading plan:

MDP has three signals:

- (1) Primary
- (2) Secondary
- (3) Continuation/Reversal

MDP incorporates what I call the 100% Price/Time/Symmetry Vector. You know what Price and Time is all about. Read Part II of the 3-15-01 Classroom for the definition of Symmetry as described above.

Webster defines Vector as: “a quantity that has magnitude and direction and that is commonly represented by a

directed line segment whose length represents the direction . . .”

MDP incorporates the following mathematical equation:

(this will be revealed at a later date)

THE MDP TRADE SIGNAL STRATEGIES:

There are three PRIMARY MDP Trade Signals. In a Primary MDP signal Price, Time, and Symmetry are clustered together at the end of a vector. Accuracy has been “100%” (for five years in ALL markets!) on two of the three Primary MDP signals with LOW to ZERO DRAWDOWNS! The remaining Primary signal is about 80% accurate! A recent example of the 100% accurate primary trade was the buy signal entry of 4-6-01 in the SP 500 that produced \$3,700.00 on **ZERO DRAWDOWN**. Other examples that MDP just missed by either a few ticks or 1 or 2 days are: Buy S-Franc on 7-11-01 for a high profit of \$4,950.00; buy J-Yen on 8-3-01 for a high profit of \$3,862; sell Dollar Index on 7-10-01 for a high profit of \$6,330.00; buy Soybeans on 6-1-01 for a high profit of \$4,990.00!

FACT #1: MDP would not have gotten out at the exact high or low day but would have captured at least 80% of those profits.

FACT #2: MDP would have entered those trades on very low drawdown and in some cases ZERO DRAWDOWN!

FACT #3: MDP has now discovered a trading idea that would have caught those trades and will now be applying that strategy in all Primary Trade Signals!

There is one SECONDARY MDP Trade Signal. This trade signal occurs when price/time are clustered together but the Symmetry falls outside the projected Vector. Accuracy is approximately 80%.

There are four CONTINUATION/REVERSAL Trade Signals. These trade signals occur after a Primary and Secondary trade signal. These signals are short-term signals. Continuation signals are only taken if MDP had a

profitable Primary or Secondary trade signal. Continuation Signals can be taken to either add to an existing profitable position or get back on board a profitable trade that was stopped out. Continuation trade signals can also be used to reverse a profitable Primary or Secondary Trade “as long as” the set up occurs at a MDP profit objective or at the next long-term Price/Time setup even if the symmetry does not occur.

One could make a strong argument to only trade the two Primary signals that are 100% accurate. However, the one Primary signal that has not been as accurate as the others has such a high profit target and moderate to low risk that MDP would be foolish not to trade it.

The first Primary Signal always occurs before the second or third Primary signal. Each of the three Primary signals increases in probability. I’ve never seen each of the Primary signals develop one right after the other. It is either one, two or three or the second and then the third.

There are two very significant observations that I have discovered. Two of the First Primary signals have been 100% accurate. The second observation that I have made, and maybe even the most significant is that even if one of the Primary or Secondary trades is stopped out for a small loss; within the series of signals that make up the new trend the outcome has ALWAYS been profitable!

So, we could state that MDP has always been EITHER:

- (1) 100% Accurate or
- (2) 100% Profitable within the series of new trades of a new trend!

I know of no other trading system on this planet that has or may ever come this close to what has been called the HOLY GRAIL of trading/investing.

BREAKING THE MDP STRATEGY DOWN EVEN FURTHER:

The reason there is a Continuation trade signal is the fact that they are

very high probability short-term signals. Second, and foremost is that they are only taken if there was already a profitable MDP trade that can risk a small amount of profit already generated. This increases the probability of getting back on board an already existing profitable trade that just happen to be stopped out.

In terms of the Reversal Trade: this is higher risk but again it is only for two reasons: (1) profit already generated on a Primary or Secondary signal sufficient to cover the reversal risk or (2) market has met the next long-term MDP price/ time setup.

SUMMARY OF MDP TRADE SYSTEM:

It can take up to three or four months for a Primary signal to be activated. However, once activated and profitable MDP could very well always be in a profitable trade. Once in a long-term profit MDP would then be looking to either hold the position, reverse the position, hedge the position using MDP option trades, or be looking for a brand new long-term trade setup in a new market.

This is truly the best of both worlds: Long Term, Short Term, Futures & Options and High Probability Profits!

Remember trading is not about getting hung up about accuracy—it is about PROFITS vs RISK. Floating between 80% and 100% accuracy with low risk and high profits IS what matters.

The upcoming trades will prove MDP’s geometrically compounding of profits and will reveal a whole new era of trading.

This journey has been interesting, but I believe the journey has just started and must always be improved upon. However, if this journey ends here, I will truly be satisfied and hope that we can all laugh all the way to the bank!

To be continued . . . I’ll see you on the MDP website. I’m working on a new report: “MDP buying the Low Tick Day and Selling the High Tick Day”.

There you have it. The complete word-for-word breakdown of the MDP dis-

covery and its history as told exclusively to ***Streamline Market Optimizer III*** customers. Real Time trades since April 6, 2001 (as of 10-1-01) have been 100% accurate with ***ZERO DRAWDOWNS*** (intra day and/or on a closing basis!).

Rates of return on margin have been 80% in just the past two trades alone using the secrets of ***GEOMETRIC COMPOUNDING!*** Huge trades are being projected within the next 4 to 6 weeks in SP 500, Currencies, and Grains. You could virtually double your trading account on the upcoming MDP trades. ***IDON'T WANT YOU TO MISS THESE TRADES!***

The MDP Trading System, Discovery and Story is nothing short of mind boggling. The facts are phenomenal. The profits are incredible. From the minute you log onto the MDP website and start learning and trading MDP you'll feel an enthusiasm like you probably haven't experienced in a long time. You will have the keys to unlocking a trading fortune.

This once-in-a-lifetime opportunity is ***YOUR INVITATION***. In this manuscript I've shared part of my personal story and search for the "perfect trading system". But all of this means nothing until you prove it to yourself. You have ***NO RISK, NO OBLIGATION, 100% UNCONDITIONAL 90 DAY MONEY BACK GUARANTEE!*** Take the MDP System for a ***TEST DRIVE*** for 90 days. If you don't think it is everything I've said it is, just send an email requesting a refund. Your refund will be processed within 48 hours and all of the free reports are yours to keep.

BEFORE YOU DO ANYTHING ELSE...

... you ***MUST*** lock in your position ***NOW!*** Even if you are not 100% certain, you can secure your position (without obligation!) with just ***your email address*** so you won't lose out.

Just for registering you will receive a ***FREE*** Trading Report.

If you don't lock in your position, there is a 95% chance that you will not secure a seat on the MDP website.

To lock in your prestigious seat on the MDP website and to receive your

FREE TRADING REPORT send an email to:

milliondollarprotocols@yahoo.com

Your email will be time-stamped for preferential handling and you will be temporarily registered for 15 days, which will lock in your position. You are under ***NO OBLIGATION*** to purchase. Registering ***ONLY*** guarantees your position for 15 days and gives you 15 days to decide. However, your order ***MUST*** be received within 15 days or you lose out on the special first time subscriber rate and will not receive the five special free reports.

PRIVACY STATEMENT: your email, name, address and personal information is ***NEVER*** revealed, rented, or sold ***TO ANY ONE*** at ***ANYTIME***. It has always been my personal policy over the past 20 years to never give out or profit from my customer names — ***EVER!***

YOU RISK NOTHING!

The Million Dollar Protocol Website Trading System is 100% Unconditional Satisfaction Guaranteed. You receive a ***NO QUESTION ASKED 100% UNCONDITIONAL GUARANTEE*** during the first 90 days!

By the time you finish reading this, I am not certain how many subscribers would have already signed up for the MDP Website Trading System or if the maximum number of allowed subscribers per year will have been reached.

Since you have read this far I am assuming you have ***locked in your position*** by submitting your email address above. That will at least give you preferential placement over those who submitted their email address after you. If the MDP website is full, you will be given priority standby status, in case of any cancellations. But remember — even your priority reservation won't get you in once the seats to this website are completely sold out.

Right now, you have in front of you the key to your future trading success. Once you join the MDP website you will be given another key; the key to unlocking the website and entering through a door of untold profits and knowledge.

HOW MUCH IS ALL THIS WORTH TO YOU?

What is the value of learning a proprietary trading system that shows you how to build a six figure trading profit year-after-year? What is it worth to learn a powerful profit-producing method long before the rest of the world finds out? What is it worth to have a proven trading blueprint that systematically produces record-breaking profits for your trading month after month?

Some large traders or institutions would pay ***tens of thousands of dollars per week*** for this exclusive information that you will not find anywhere else.

Now, I know what you are probably thinking: any trading system that can possibly produce huge profits quick, safely — month-after-month — must cost an arm and a leg. Well, I've been in this business for nearly 20 years, and you are right. I can't think of one serious trader who wouldn't gladly fork over \$10,000.00 or even \$100,000.00 or dare I say ***ONE MILLION DOLLARS***, for the kind of information that is contained in the Million Dollar Protocols.

After all, just a few trades like the ones that have been made recently paid for the entire year of the MDP website many times over!

BUT FIRST here is what else you will receive ***FREE*** as an introductory subscriber. You will receive the following ***ONLINE SPECIAL TRADING REPORTS*** other traders all over the world have already paid hundreds of dollars for:

REPORT #1: The Dual Velocity Trigger Point.

Details a very specific chart pattern configuration that produces explosive price moves.

REPORT #2:

Details the Seven Key Ingredients that must be included in every trading system or plan — in order for that system to be ***MEGA PROFITABLE!***

REPORT #3:

A report showing how to successfully trade options using a step-by-step plan.

REPORT #4: Past newsletters

REPORT #5: Secrets of Trading System Tools and Development

REPORT #6: Buying the Low Tick Day; Selling the High Tick Day (when available)

For obvious reasons I can only allow a certain number of members/subscribers to have a "seat" on the MDP Trading Website. It just would not be prudent to have everyone and his uncle to be a member. The MDP trading secrets and technology will be guarded and shared on an exclusive basis to a select group of traders.

Not everyone will be allowed to join. The following applications will be rejected and as a subscriber you pledge that you are not a CTA, CPO, BROKER, GOVERNMENT AGENT, or PROFESSIONAL POLITICIAN.

Sorry, but only self reliant, enterprising individual traders are accepted. If you fall into one of the above categories and becomes a subscriber you will be in violation of the MDP website agreement and agree to pay a \$100,000.00 fine for filling out a false application order form. You will also agree NEVER to share any of the information to the above mentioned parties or any other third person or persons or entities under the same \$100,000.00 penalty (PER VIOLATION) for violating the MDP agreement. Although, once you see how valuable this is YOU WILL NOT even be tempted to share it with anyone else!

OK WHAT DOES IT REALLY COST AND HOW DO I SIGN UP?

NORMALLY the cost is \$5,000.00 per year. However, because of who you are you can sign up for ONLY \$1,500.00 per year during the FIRST YEAR. Thereafter the price will be \$5,000.00 (which is a steal even at that price since one trade can EASILY produce a \$5,000.00 profit per contract!)

If you are already a SMOIII customer system owner you can lock in your introductory membership for \$1,000.00 per year FOR LIFE! No matter how many price increases, if you are a SMOIII system owner, you can lock in your special price NOW of only

\$1,000.00 per year and be GUARANTEED that price will never be increased!

NOTE TO SMOIII & FDN CUSTOMERS: Soon I will no longer be making specific MDP recommendations via the TRADE WIZARD special reports. In addition your access to the Free MDP website will soon be turned off. Please take advantage of this special introductory offer. In terms of the SMOIII Trade Wizard I will continue to make general market commentary and keep you posted on the MDP trade results (but not specific trade recommendations) and will also keep you posted on my research.

However, this SPECIAL OFFER is only valid for the next 15 days and WILL NEVER be repeated. If I do not hear from you then you will never receive this offer again. So, either subscribe NOW or do not lose this special manuscript because it may very well be valuable in and of itself some day!

Follow these steps:

- 1) Send your name and email address to lock in your position and verify that you are sending your order. Email to: milliondollarprotocols@yahoo.com and receive your FREE trading report.
- 2) Fill out the enclosed order form and mail your check today and receive all five trading reports FREE plus access to the MDP website for one full year!

All future renewals will be handled via credit card online or by check if you prefer making payments the old fashion way. However, initially please mail in your order at this time via check.

As soon as your order is received you will receive an email giving you the secret key that will unlock the MDP Website and that will allow you to enter into a new realm of trading that only a few have seen or will be given the privilege of having. This is truly a very limited invitation.

Under a special marketing agreement I have allowed a company by the name of Exeter Holding Group, LTD to make available my new discovery for a

short period of time. Please follow the order form instruction below.

I look forward to hearing from you and welcoming you into my extended family of online traders.

Sincerely:

Jeff Rickerson

P.S. What you have to "spend" at the end of every trading month in the form of profits **IS** what matters. I really believe that those that implement this trading system within their own trading account will become one of the few financially independent traders during the year 2002 and beyond.

P.P.S.:

BONUS #1: As an extra bonus if you subscribe TODAY I will throw in an extra 30 day free subscription so that your first MDP trade of the month could quite possibly pay for your entire year subscription!

BONUS #2: Subscribe within the next 10 days and I will throw in my MDP PREMIUM E-ALERT Service. This service normally costs an additional \$195.00 per year. If you subscribe NOW, this service is FREE.

The MDP PREMIUM E-ALERT service allows me to email you during any 24 hour period (including intraday) any special trading situations that may develop that would not normally or could not be reported on the MDP Website.

BONUS #3: Order your MDP Website subscription NOW and if you currently do not own one of my other three trading systems, I will give you a \$1,000.00 discount off the SMOIII system or \$100.00 off either the Bull Bear Oscillator or the Trend Analyzer with Expert Wizard. For more information on those trading systems go to: www.findatanet.com.

Order Form

Check the box that applies to you:

- ☐ I am a SMOIII System Owner. My SMOIII password is _____. Enclosed is my \$1,000.00 special discount membership fee.
- ☐ Normally \$5,000.00 per year. For a limited time ONLY \$1,500.00 per year for NON-SMOIII system owners. I have enclosed my payment of \$1,500.00.
- ☐ I can't afford it right now. Here is my \$500.00 deposit. Lock my subscription in at the special rate of \$1,500.00 and hold my subscription. I'll pay the other \$1,000.00 when I can. When I pay the final \$1,000.00 please activate my subscription and email me the MDP Website access key.
- ☐ I wish not to subscribe at this time. Please keep me posted to any availability or cancellations so that I may be able to subscribe at a future date.

*I am subscribing on the terms and conditions that I am not a CTA, CPO, Broker, Politician, or Government Agent and will not allow anyone else to have access to the MDP Website except my immediate family, unless they are a CTA, CPO, Broker, Politician or Government Agent, then sharing the MDP Website access is prohibited and would be in violation of this agreement. I agree not to discuss the MDP Theory or Trading System with anyone and that if I do I agree to pay a fine of \$100,000.00 per violation. I understand that I have a 100% UNCONDITIONAL MONEY BACK 90 DAY GUARANTEE if not completely satisfied.

IMPORTANT NOTICE

Hypothetical or simulated performance results have certain limitations. Unlike an actual performance record, simulated results do not represent actual trading. Also, since the trades may or may not have been executed in real time they may have been under or over compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. Commodity trading has large potential rewards, but also large potential risk. You must be aware of the risk and willing to accept them in order to invest in the futures markets. Don't trade with money you can't afford to lose. Past profits are not necessarily indicative of future results. This is neither a solicitation nor an offer to buy/sell securities or commodity interests.
